SUMMARY

With experience as an economist, I am skilled in recording and managing financial transactions, bank reconciliations, and comprehensive financial reporting. My expertise encompasses payroll management, contract processing, and financial documentation, consistently ensuring accuracy and compliance with company standards and regulatory requirements. I am highly detail-oriented with strong analytical abilities in financial data analysis and proficient in utilizing tools such as Excel, SQL, and other specialized financial software. I am committed to delivering quality results with a focus on precision, efficiency, and providing strategic support for financial decision-making processes.

WORK EXPERIENCE

Human Resources, Kontakt SHPK

March 2025 - June 2025

- Designed, modeled, and automated internal human resources databases to streamline employee information management and reporting processes.
- Prepared and reviewed monthly payroll, ensuring accurate calculation of salaries, taxes, and social security contributions.
- Supported preparation of HR-related financial reports for cost analysis and managerial decision-making.
- Enhanced HR data workflows through automation implementation, reducing manual data entry and minimizing errors.
- Monitored recruitment and onboarding phases while maintaining employee communications to ensure proper HR procedure execution.
- Maintained and updated employee records, job titles, and departmental structures with high accuracy and confidentiality.

Real Estate Assistant (Fintech), TalentBridge

January 2025 - March 2025

- Reviewed and processed financial transactions, ensuring accuracy and compliance with company policies and regulatory requirements.
- Managed and organized contracts, agreements, and other essential documents to facilitate accurate and timely transaction processing.
- Verified and entered data into databases, maintaining up-to-date and accurate records.
- Assisted in resolving discrepancies in transaction documentation to prevent delays in payment processing and client account reconciliation.

Data Entry Specialist, TalentBridge

October 2024 - December 2024

- Assisted the insurance team in accurate data entry and management for insurance applications.
- Ensured data consistency and integrity, supporting analysis and decision-making processes.
- Maintained and updated data in accordance with internal policies and company standards.

- Recorded financial transactions and maintained accurate financial data.
- Managed payroll processing and ensured timely payments to employees.
- Managed and updated the general ledger, ensuring accurate categorization and balancing of all entries.
- Performed periodic bank reconciliations to verify data accuracy and identify discrepancies.
- Ensured accuracy and completeness in all financial tasks, in compliance with company policies.

- Created relevant content for various social media platforms (Instagram, Facebook, LinkedIn, etc.).
- Designed graphics and visual elements using tools such as Canva and Photoshop.
- Managed follower engagement through timely and professional responses to comments, messages, and mentions.

EDUCATION

COURSES & CERTIFICATIONS

Angular - The Complete Guide (2025 Edition), Udemy

- Developed modern web applications with Angular using Single Page Application (SPA) architecture, advanced routing, and API communication.
- Utilized Reactive Forms, state management, and performance optimization for enterprise applications.

The Data Science Course: Complete Data Science Bootcamp 2024, Udemy

- Developed a strong foundation in data analysis, statistical modeling, and machine learning, with hands-on experience in Python, R, and data visualization tools to solve real-world problems.

Next.JS Bootcamp, BetaPlan

- Building foundational skills in HTML, CSS, JavaScript, and React by developing dynamic web applications and deepening my understanding of modern front-end development practices

SKILLS

- **Programming Languages:** Python, R, MATLAB, Java, C++, HTML5, SQL
- **Data Analysis & Manipulation:** Pandas, NumPy
- **Statistical Analysis:** Hypothesis Testing, Regression Analysis, Probability Theory
- **Data Visualization:** Matplotlib, Seaborn
- **Workflow Orchestration:** Apache Airflow
- **Soft Skills:** Critical Thinking, Teamwork, Time Management, Effective Communication
